Mayor Lauri Lyly
PO BOX 487
33101 Tampere

Application: Reception hosted by the City of Tampere on Tuesday 6 September 2022

On 4–7 September 2022, Tampere University will organise Computing in Cardiology (CinC) 2022 congress. We organisers cordially inquire if the City of Tampere would like to organise a reception for the congress participants at the Old City Hall.

The congress will bring about 300 participants from Europe, America and Asia to Tampere. CinC is an established international scientific conference with a rich history held annually since 1974. The 2022 edition of the conference will be organized in Finland for the first time. CinC provides a forum for scientists and professionals from medicine, physics, engineering, and computer science to discuss their current research on computing in clinical cardiology and cardiovascular physiology. Attendees present and learn about leading-edge work at the interface of clinical practice, engineering, and basic research during three days of plenary, parallel, and poster sessions

As the conference program overview has always followed the same schedule, we hope that in case of positive decision the Tampere City reception can be organized on Tuesday 6 September 2022.

For further information on the congress, see the enclosed programme or visit the congress website at www.cinc.org. Prof. Jari Hyttinen is the chairman of the local organising committee and Dr. Michelangelo Paci the vice-chairman.

Tampere University Congress Office takes care of the practical arrangements of the congress. They may be contacted by email congress@tuni.fi.

I am looking forward to a positive response to our application.

On behalf of the organisers,
Prof. Jari Hyttinen & Dr. Michelangelo Paci
