## **Article 3: Subject of the Partnership Agreement**

This partnership agreement lays down the arrangements regulating the relations between the LP and all the PPs, in order to ensure sound implementation of the project as in the latest version of the project data, as well as in compliance with the conditions for support set out in the European Structural and Investment Funds Regulations, delegated and implementing acts, the Interreg Europe Programme and programme manual, and the subsidy contract signed between the MA and the LP.

## **Article 4: duration of the partnership agreement**

The present partnership agreement comes into force once it has been signed by the LP and each PP individually, and under the condition that the project is approved for co-financing by the programme. It remains in force until the LP and PPs have completed in full their obligations as further defined in article 6 of this agreement towards the MA and any relevant European body. Notwithstanding the entry into force of the partnership agreement as indicated above, the obligations of the partners based on the legal framework included in article 1 are applicable from the start of the project.

## **Article 5: Roles and duties in the partnership**

The LP of the project:

- is entitled to represent the PPs in the project.
- is responsible for the overall coordination, management and implementation of the project towards the MA.
- ensures timely start and implementation of the activities within the lifetime of the project, in compliance with all obligations to the MA. The LP must notify the JS of any factors that may adversely affect implementation of the project activities and/or financial plan.
- monitors the delivery of the agreed work plan setting out tasks to be undertaken as part of the project, the role of the PPs in their implementation, and the project budget.

- prepares and submits the project progress reports, including supporting documents, according to the programme manual, and additional requested documents and/or information from JS and MA.
- addresses requests for project modifications, according to the programme manual.
- is, in general, the contact point representing the partnership for any communication with the JS/MA or any other programme body.
- provides the partners with copies of all relevant project documents, and reports on the implementation of the project. The LP must regularly inform the PPs of all relevant communication between the LP and the JS/MA.
- carries out any other tasks agreed with the PPs.

PPs are the bodies responsible for carrying out specific project activities in the manner and scope indicated in the project data (in particular in the latest approved application form). PPs commit themselves to undertake all steps necessary to support the LP in fulfilling its obligations as specified in the subsidy contract signed between the MA and the LP, as well as in this agreement.

The PPs must:

- actively cooperate in the implementation of the project;
- cooperate in the staffing and/or financing of the project in accordance with this partnership agreement;
- keep to other obligations based on this partnership agreement;
- provide the LP with all the information and documents required for coordinating and regularly monitoring the technical and financial progress of the project, and necessary in preparing the progress and final reports concerning the part of the project that the partner is responsible for;
- provide any additional information related to reporting to the LP or JS/MA if requested, in due time;
- inform the LP of any change related to the name of their organisation, contact details, legal status or any other change concerning the partner organisation which may have an impact on the project or on their eligibility to the programme.

The PPs must also:

- carry out the specific activities set out in the project data in line with the latest version of the application form;
- comply with any deadlines set by the programme, the LP or agreed within the partnership;
- notify the LP of any factors that may adversely affect implementation of the project in accordance with the project data and lead to a deviation.

In particular, for the part of the project for which it is responsible, each PP must ensure:

- that it complies with relevant rules concerning, inter alia, equal opportunities, protection of the environment, financial management, project branding and visibility rules, procurement rules and State Aid;
- that its project activities are implemented in accordance with the rules and procedures set in the programme manual;

## **Article 6: Financial management of the project**

Each PP must:

- set up separate accounting records or use an appropriate accounting code for all transactions relating to the operation, ensuring that expenditure as well as the received national and programme co-financing related to the project, are clearly identified.
- strictly follow the EU eligibility rules as well as further eligibility rules set up by the programme in the programme manual and, if applicable, national rules.
- be responsible for guaranteeing the sound financial management of programme funds received and, in cases of recovery, for reimbursing the LP or relevant programme body directly unduly paid programme co-financing, in accordance with the rules and procedures set in the programme manual. In the case of national contribution, the specific regulation of the country granting it applies.
- regularly and timely submit expenditures for verification to the designated controllers, according to the rules set at programme and national level. Verified expenditures must be submitted through the programme's electronic monitoring system (Interreg Europe Portal) to the LP immediately after verification.
- ensure that the expenses incurred are strictly related to the project activities, in line with the project data.
- ensure that programme requirements on eligibility of expenditure as stated in the programme manual are strictly respected.
- set up a physical and/or electronic archive where data, records and documents composing the audit trail are stored, in compliance with the requirements described in the programme manual.

Furthermore, the LP must:

- ensure that the expenditure presented by the PPs participating in the project has been incurred for the purpose of implementing the project and corresponds to the activities agreed between those partners as specified in the project data.
- verify that the expenditure presented by the PPs participating in the project has been validated by controllers, according to the rules set at programme and national level.
- receive programme co-financing for the entire project and transfers it to the other PPs participating in the project within 14 days of its receipt.
- constantly monitor the spending of the project budget foreseen for each PP, and ensure that budget shifts are carried out within the limits and according to the rules as set out by the programme in the programme manual,

If a PP fails to inform the LP of any deviation from the project data, the LP is then entitled to refuse to include in the project progress report the costs of this partner that are connected to unjustified deviations and/or that result in an overspending of the approved budget of this partner. Similarly, if a PP fails to provide the necessary input for the preparation of the project reports within the deadline agreed with the LP, the LP may be obliged to submit to the programme the joint progress report without the costs of this PP, in coordination with the JS.

Programme co-financing payments not requested by each PP in time and in full in line with the project planned expenditure included in the project data may be lost for the project partner concerned.

The PPs must provide access to the premises, documents and information, irrespective of the medium in which they are stored, for verifications by the MA, the JS, the AA, relevant national authorities, authorised representatives of the EC, the European Anti-Fraud Office (OLAF), the European Court of Auditors, the Group of Auditors and any external auditor authorised by these institutions or bodies. These verifications may take place up to 5 years from 31 December of the year of the last payment from the programme to the LP or PP. The PPs must ensure that all original documents, or their certified copies, in line with the national

legislation related to the implementation of the project, are made available until the above final date of possible verifications, and until any on-going audit, verification, appeal, litigation or pursuit of claim has been completed.

### **Article 7: Recoveries**

Should the MA, in accordance with the provisions of the respective articles of the subsidy contract, demand repayment of programme co-financing already transferred, each PP must transfer to the LP or relevant programme body any amounts paid to them in excess, according to the rules and timeframe as set out by the programme in the programme manual and recovery documents.

In such cases, the LP must immediately forward to the PPs the recovery documents received from the MA/JS and notify every PP of the amount repayable.

If the recovery concerns the LP alone, then the LP must not stop payments to the other PPs.

### **Article 8: Modifications, withdrawal from obligations**

The LP and each PP agree not to withdraw from the project unless there are unavoidable reasons for doing so. Should this nonetheless happen, the LP and the remaining PPs must find a solution in agreement with the rules and procedures as described in the programme manual.

Should a PP fail to comply with its obligations under this partnership agreement, the partnership may decide as a last resort to remove this PP from the project and request modifications in accordance with the procedures outlined in the programme manual.

The LP can, if necessary, request modifications of the project data to the JS/ MA or other relevant programme body. Any modifications requested, including budget, partnership and operational changes, must be agreed and authorised by the PPs of the project beforehand, according to pre-agreed rules of procedure or other decision-making mechanism established in the partnership.

The LP and PPs must strictly follow the provisions of the programme manual when requesting and/or implementing modifications in the project.

### **Article 9: Information and communication, publicity and branding**

The LP and the PPs must comply with the EU publicity rules as well as the communication requirements outlined in the programme manual and provide any material developed during the lifetime of the project that may be useful for publications at the programme level.

In the spirit of cooperation and exchange, the LP and PPs ensure that any output and result produced during project implementation can be used by all interested parties and organisations and are in the public interest and publicly available. The MA/JS and any other relevant programme, EU and national body can use them for information and communication purposes in the framework of the programme.

Moreover, the PPs will support the LP and play an active role in any actions organised by the programme to disseminate and capitalise on project results.

## **Article 10: Intellectual property rights, confidentiality and conflict of interest**

The LP and PPs must undertake to enforce all applicable national and EU law, including but not limited to laws on intellectual property rights, especially copyright, regarding any output produced as a result of project implementation.

The LP or PP shall ensure that it has all rights to use any pre-existing intellectual property rights, if necessary for the implementation of the project.

The LP and PPs are obliged to take all necessary measures to avoid conflicts of interest, and to keep each other informed without delay on any circumstances that have generated or may generate such conflict.

The LP and PPs are obliged to inform the relevant programme bodies if there is any sensitive or confidential information related to the project that may not be published or made publicly available. This clause does not affect the LP and PPs obligation to make all results and outputs of the project available to the public.

## **Article 11: Decision-making under this agreement**

Decisions regarding the:

- general project activities will be taken by the Project Management Team (PMT) in cooperation with the LP.
- individual activities of PPs will be taken by PMT in cooperation with the LP and the PP responsible for the activities in question.
- general project budget will be taken by the Steering Group (SG)
- individual budget of PPs will be taken by the SG in cooperation with the PP in question and the LP.
- request for the exclusion and addition of PPs will be taken by the SG.

The decisions will be taken by majority vote.

## **Article 12: third party contracts, liability and outsourcing**

In the case of cooperation with third parties including but not limited to sub-contractors, with regard to the project, the relevant PP remains solely responsible towards the other PPs concerning compliance with its obligations as set out in the programme manual. Whenever it is relevant for other PPs, PPs must inform each other about the scope of such contracts and the names of the contracted parties.

Should a PP not comply with its obligations, this PP shall be the sole responsible for damages and costs resulting from this non-compliance.

## **Article 13: Assignment, legal succession**

In case of legal succession, e.g. where the LP or any PP changes its legal form, the LP or PP is obliged to transfer all duties and obligations under this contract to its successor. Legal succession shall be formalised in a project data modification.

## **Article 14: Amendment of the partnership agreement**

Amendments to the partnership agreement must be properly documented. If applicable in accordance with the rules and procedures as set out in the programme manual, the LP presents the amended partnership agreement to the relevant programme body without undue delay.

#### **Article 15: Termination**

The partnership agreement must be terminated as a consequence of termination of the subsidy contract. Following termination of the partnership agreement, the LP and PPs are still obliged to comply with all the requirements after project closure, such as recoveries or document retention for audit and evaluation purposes.

#### **Article 16: Dispute settlement**

Disputes arising between PPs or between the LP and PP/PPs concerning their contractual relationship and, more specifically, the interpretation, performance and termination of this agreement should whenever possible be resolved amicably. Should this not be possible, the law of the country of the LP shall apply. If the amicable settlement method is ineffective and the disagreement persists in spite of all efforts being made in this respect, the dispute shall be finally decided by the courts. The place of jurisdiction is Tampere, Finland at the seat of the lead partner.

## **Final Provisions**

The partnership agreement is written in English. If this document and its annexes are translated into another language, the English version will be the binding one.

In case of conflicting clauses or interpretation thereof between this agreement and the subsidy contract, the subsidy contract takes precedence.

If any provision in this partnership agreement should be wholly or partly ineffective, the parties to the partnership agreement undertake to replace the ineffective provision by an effective provision which comes as close as possible to the purpose of the ineffective provision.

Amendments and supplements to the present agreement must be in written form. Consequently, any changes to the present agreement will only be effective if they have been agreed on in writing.
